PHYSICAL CONNECTION TEST

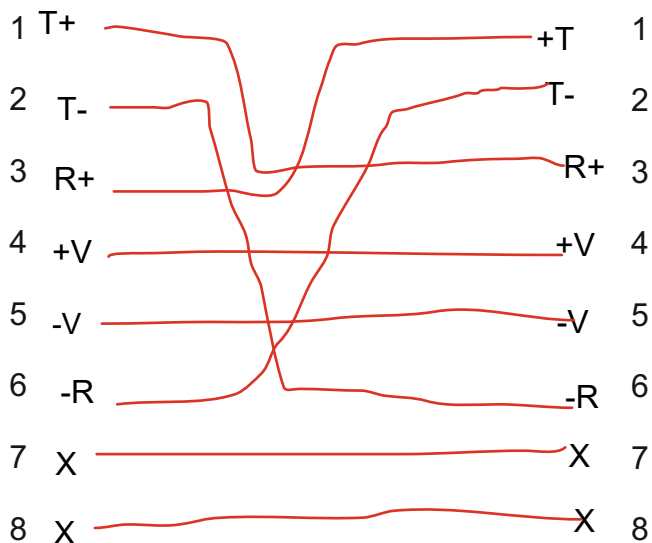

1, Types of mediums ?

wired medium -electrical signals, light signals , wireless medium- radio frequency signals

2, Write down switch 8-pins ?

- 1 R+
- 2 R-
- 3 +T
- 4 +V
- 5 -V
- 6 -T
- 7 X
- 8 X

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

Auto MDIX is a feature used in latest NIC where it changes the flow of data between source and destination device - example pc and router same device function - they use cross over cable - because of this in built feature in nic card which is done by manufacturer itself - +t from pc will be automatically linked +r of the router

5, Explain POE injector ?

Type text here

POE injector is a device that allows power to ethernet cable , both data and power are send thru this injector- used to connect accesspoint, ip camera - one device allowed

6, Explain POE switch ?

Type text here

POE SWITCH also allows power and data thru ethernet cable with multiple ports and it acts like switch network switch which allows multiple connections like 10 camera, 5 accesspoints, IP PHONES,

7, Explain types of nic & function ?

Type text here

ETHERNET NIC- RJ45 cable copper, LAN, MAC - wired ethernet network
WIRELESS NIC - 802.11, wireless ,WIFI,SSID - connects devices to wireless n/w
FIBRE NIC -OPTICAL, SFP, FIBRE , HIGH SPEED - connects using fibre optic cables
